

Inleiding tot Seewier Geleentheid

Seewiere is 'n belangrike natuurlike bron. Dit is 'n bestanddeel in baie produkte wat ons op 'n daaglikse basis gebruik en inneem. As gevolg van die potensiele voordele verbonde aan die groei van die sektor,, bevorder die United Nations Development Programme (UNDP) (vertaling as Verenigde Nasies Ontwikkelings Program) die volhoubare gebruik, boerdery, en produksie van seewiere in Suid Afrika.

Gevolglik werk die UNDP, in samewerking met die Departement van Bosbou, Visserye en die Omgewing (DBVO/DFFE), in vennootskap met Bio Solutiones Technicas (BST) om werkswinkels in die gemeenskap aan te bied, wat daarop gemik is om die potensiaal van seewiere te verken, en om meer te leer van plaaslike ondervindings.

Werkswinkels sal as volg gehou word:

- Saldanha Baai: 12 Augustus 2024, 8 vm – 5 nm
- Velddrif: 14 Augustus 2024, 8 vm – 5 nm
- St Helena Baai: 16 Augustus 2024, 8 vm – 5 nm

Vir verdere inligting, wou asseblief een van die ope inligtingssessies by op 27 Julie:

- **Saldanha Baai** 10:00 - White City Multi-Purpose Centre
- **St Helena Baai** 10:00 - Steenberg's Cove Gemeenskapsaal
- **Paternoster** 12:00 - Solomon Tolman Gemeenskapsaal
- **Velddrif** 12:00 - Noordhoek Laerskool

Alternatiewelik, versoek asseblief 'n aansoekvorm van: Sel: 063 741 7379 (Voice en WhatsApp), of Epos: RSVP@Biosoltecnic.com

Die sluitingsdatum vir aansoeke vir bywoning van die werkswinkels is 2 Augustus 2024.

Die uitslag van u aansoek sal by 7 August 2024 gekommunikeer word

An Introduction to Opportunities in Seaweed

Seaweed is an important natural resource. It is found in many products that we use and consume daily. Due to the potential benefits of growing this sector, the United Nations Development Programme (UNDP) is promoting the sustainable use, cultivation, and production of seaweed in South Africa.

Accordingly, the UNDP in collaboration with the Department of Forestry, Fisheries and the Environment (DFFE), is working in partnership with Bio Solutiones Technicas (BST) to hold community engagement workshops aimed at exploring the potential of seaweed and learning from local experiences

Workshops will be held as follows:

- Saldanha Bay: 12 August 2024, 8am – 5pm
- Velddrif: 14 August 2024, 8am – 5pm
- St Helena Bay: 16 August 2024, 8am – 5pm

For further information, please attend one of the open briefing sessions on 27 July:

- **Saldanha Bay** 10:00 - White City Multi-Purpose Centre
- **St Helena Bay** 10:00 - Steenberg's Cove Community Hall
- **Paternoster** 12:00 - Solomon Tolman Community Hall
- **Velddrif** 12:00 - Noordhoek Primary School

Alternatively, please request an application form from: Cell: 063 741 7379 (Voice and WhatsApp), or Email: RSVP@Biosoltecnic.com

The closing date for applications for attendance of the workshops is 2 August 2024.

The result of your application will be confirmed by 7 August 2024.
